Local 812 has always fought to protect member benefits, but employers are targeting your retirement security in our upcoming soda contract negotiations.

It's no secret. Liberty Coke says this is their #1 issue. They even created so-called "retirement" videos to pressure workers.

**This impacts all Local
812 members.**

Join our Zoom Meeting to hear from retirement fund professionals, including actuaries, accountants, lawyers and our investment advisor. They will provide an overall picture of the fund, how it's funded, its investments and history. The Local 812 Executive Board will also discuss what's at stake in our upcoming contract negotiations.

**Together, we'll fight for contracts
that provides fair wages, good
benefits and secure retirements.**
